

muratto®
natural surface design

« Founded in 2013, **MURATTO**® stands tall as a prominent *Portuguese* brand, celebrated for its expertise in *Natural Surface Design*.

Our *mission*, rooted in vitality and *inventiveness*, revolves around delivering *breathtaking covering solutions*. Guided by a vision of *sustainable growth*, we are anchored in four core values: *Natural Lifestyle, Design, Sharing, and Interior Comfort*.

Our *aspiration* is to breathe *new life into coating finishes*, offering a *refreshing perspective on design*. »

VASCO BARROS, MURATTO CEO

NATURAL LIFESTYLE: Pioneering Sustainable Living

Muratto's approach centers around sustainable development, prioritizing natural raw materials and striving to foster a natural lifestyle. Committed to positivity towards oneself and others, our process embodies a harmonious blend of environmental consciousness and design innovation.

DESIGN: Where Creativity Takes Center Stage

At Muratto, design is the heartbeat of our creative process, driving active product and process creation. We hold in high esteem the value of handcrafted goods and draw inspiration from the rich tapestry of Portuguese tradition, shaping the very identity of our brand. Our mission is to traverse diverse realms of décor and design, seamlessly embracing the spectrum from the most traditional to the cutting-edge contemporary.

SHARING: Fueling Innovation Through Collaboration

At Muratto, we believe that the finest innovations emerge from daring ideas and the exchange of creative energies. We actively engage in sharing our thoughts, ideas, emotions, wishes, and ambitions—it's the driving force propelling us forward. Collaborating with an array of international designers worldwide, we seek to offer superior solutions to our partners, giving rise to distinctive products with unique designs. Through close partnerships, we strive to develop sustainable products and processes, making a meaningful difference.

INTERIOR COMFORT: Where Design Meets Well-being

At Muratto, our unwavering focus is on Interior Comfort. Every intervention in the market is purposefully directed towards creating products that positively influence the daily lives of consumers. Elements like acoustic excellence, visually inspiring aesthetics, thermal comfort, and environmental suitability are intricately woven into each design. From homes and hotels to offices

Our passion for natural materials fuels us.

Materials that matter, waste repurposed, **sustainability** assured.
We aim higher, reach further, and **respect** what **nature** created
with every collection. **Together**, our impacts ripple out, making
waves of **change**.

Rethink materials with us.

DESIGN BLOCKS BEEHIVE

ABOUT BEEHIVE

The Organic Block Beehive takes form through the organic evolution of multiple geometric planes—a harmonious blend of nature and contemporary design, a modern ode to the simplicity of a honeycomb. The intricate pattern, seemingly in motion, is meticulously balanced, infusing the atmosphere with vitality, energy, and emotion. Each plane contributes to the natural and dynamic continuation of this unique design, creating a captivating visual symphony.

DESIGN BLOCKS CHOCK

ABOUT CHOCK

With four diagonal lines emanating from the center of each square, Design Block Chock is akin to four windows opening in diverse directions. Purposefully crafted for maximum visual impact in larger areas and expansive rooms, each of the four elements maintains its individuality while seamlessly contributing to the overall effect. The elegance lies in the simplicity of the geometry, where the four sections harmonize to create a captivating and unified visual masterpiece.

DESIGN BLOCKS MINICHOCK

ABOUT MINICHOCK

Crafted from four smaller squares intersecting at varied angles, Design Block Minichock is tailor-made for intimate spaces. The mosaic pattern, formed through the repetition of these shapes, brings simplicity to life, creating an environment that is not only expressive but also exudes energy and playfulness. In the world of design, even the smallest squares can make a resounding impact.

DESIGN BLOCKS PEAK

ABOUT PEAK

Design Block Peak stands out with its composition of four asymmetrical triangles converging at a peak within each square. The repetitive pattern not only reflects ambient light but also conjures the majestic imagery of mountains. Taking cues from nature, Peak employs color mixing and matching to craft diverse moods, making every installation a unique elevation of asymmetry and natural inspiration.

DESIGN BLOCKS SENSES

ABOUT SENSES

Embracing an organic design philosophy, Design Block Senses artfully arranges smoothly curved hourglass shapes in both horizontal and vertical orientations. Drawing inspiration from the undulations of nature, this design adds a voluminous dimension to smooth walls. Senses provides the flexibility to partially or completely cover walls, granting a canvas for both creativity and originality. Let the undulating elegance of Senses transform your space into a haven of organic beauty.

DESIGN BLOCKS HEXAGON

ABOUT HEXAGON

Much like the raw material cork, the Design Block Hexagon is a geometric shape inherent in nature, symbolizing communication, balance, and togetherness. This hexagonal design serves as an interface connecting each tile, fostering new interior shapes and culminating in a unique and harmonious result. Inspired by the natural harmony of geometric shapes, Hexagon seamlessly integrates into your space, creating an environment that resonates with balance and interconnected beauty.

DESIGN BLOCKS DROP

ABOUT DROP

Inspired by the fluid motions of nature, Design Block Drop embodies the lightness and purity of water. This piece seamlessly marries fluid dynamics with an organic surface, creating a three-dimensional masterpiece that comes to life through its volume. The pattern of Design Block Drop has the enchanting ability to transform any wall into a visual cascade, capturing the essence of a real waterfall and infusing your space with natural elegance.

DESIGN BLOCKS KUBUS

ABOUT KUBUS

Geometric shapes in décor have a versatile appeal, adapting to contexts ranging from traditional to retro and bold to cool. Design Block Kubus stands as a visually impressive geometric marvel, showcasing its three-dimensionality and, notably, its natural composition. The smooth yet distinct lines on its sides enhance the exclusivity of this piece, making it the unequivocal focal point of any room it graces.

COMPLEMENTS SQUARE MOSS XL

ABOUT SQUARE MOSS XL

Born from our deep passion for the interplay of preserved natural moss and cork, Moss Square XL stands as a testament to the harmony between nature's greenery and the timeless elegance of cork. Designed as a complement to pair seamlessly with Peak, Chock, and Minichock, Square Moss XL brings the freshness of nature into your space, creating a captivating blend of organic beauty and refined sophistication.

MATERIAL

Solid cork sheet base filled with 100% naturally preserved moss. Due to the preserved moss' extension to the piece's ends, it is recommended to use it when combined with the Organic Blocks Peak, Chock and Minichock. Intended for indoor use only. Maintenance-free.

CORK BARK

CORK BARK VIRGIN TREE

ABOUT CORK BARK VIRGIN TREE

The surface texture of Cork Bark Virgin Tree, harvested from cork oak trees, is rugged, high-contrast, and shaped by weather. Blending the grandeur of natural cork with the lush green of preserved moss, we craft rustic planks that captivate with their visual allure. With a substantial height and authentic appearance, the Virgin Tree planks are perfect for fashioning distinctive and charming environments. Welcome nature into any space with these extraordinary planks.

MATERIAL

Panels made of lightweight poplar wood - PEFC and CARB II / TSCA VI certified, covered with pieces of the natural cork oak tree bark, and preserved moss – pre cleaned and individually applied by hand.

Protective finishing, with or without color pigments. Intended for indoor use only. Maintenance-free.

CORK BARK SKIN TREE

ABOUT CORK BARK SKIN TREE

The Cork Bark Skin Tree, harvested from the inner layer of the cork tree bark, showcases a rough, high-contrast, and weather-molded surface. The majestic beauty of natural cork, paired with the vibrant green of preserved moss, gives life to rustic planks with captivating visual allure. With their substantial height and authentic appearance, Skin Tree planks are perfect for crafting distinctive, charming environments, allowing nature to seamlessly enter any space.

MATERIAL

Panels made of lightweight poplar wood - PEFC and CARB II / TSCA VI certified, covered with pieces of the core of the natural cork oak tree bark, and preserved moss – pre cleaned and individually applied by hand. Protective finishing, with or without color pigments. Intended for indoor use only.

XL PRIME PANELS

HOW TO CUSTOMIZE YOUR XL PRIME PANEL

All XL Prime Panels share a consistent core composition, featuring a natural cork veneer layer, an acoustic cork backing membrane, and a surface finish coating. However, the appearance of the panel surface is fully customizable, allowing for a unique touch to each project. The customization process involves the following steps:

- 1. Choose the cork veneer.
 - 2. Select the final color of the panel, either natural cork or black cork, in accordance with the chosen veneer.
- Choose from a range of color options, with or without additional color finishing.

While the standard cork veneer is 'Primecork veneer,' bespoke options are available, including a selection of other veneers to suit your individual preferences.

EVA DECO + NIKE GRIND

EVA DECO + NIKE GRIND

ABOUT EVA DECO + NIKE GRIND

The Eva Deco + Nike Grind collection features Eva foam (Ethylene-vinyl acetate) sourced from various NIKE GRIND footwear midsoles, meticulously ground and transformed into versatile sheets for DIY projects. This innovative product boasts a diverse array of patterns and excellent technical properties, including unique designs combining Eva and cork. Beyond the creative possibilities offered by these multi-purpose sheets, our commitment to recycling supports the sports industry in responsibly repurposing materials, contributing to a sustainable and eco-friendly approach.

MATERIAL

Sheets packed in rolls (one sheet per roll), finished with a water base varnish coating, made of granulated EVA (Ethylene-vinyl acetate) foam from footwear midsoles, or EVA + cork (depending on the pattern), in various color combinations.

TECHNICAL PROPERTIES

EVA foam sheets exhibit key performance characteristics:
High aesthetic impact;
High flexibility;
High shock absorption attributes;
Resistance to stress-cracking;
Low liquid absorption;
Thermal insulation.

CLIP 2 FIX®

ABOUT CLIP 2® FIX EASY PANEL MOUNTING SYSTEM

CLIP 2 FIX® is a concealed fixing system designed for effortlessly installing panels and tiles on interior walls and ceilings, eliminating the need for adhesive. This mounting system consists of two key components: specially designed profiles and exclusive connectors (clips). The profile is applied to both the back of the panel and the wall substrate. The connectors seamlessly join these profiles, providing a secure and durable installation. Compatible with a variety of panel products, including plywood, MDF, plastic, fiberglass, HPL, sandwich panels, and composite panels, CLIP 2 FIX® offers versatility.

MATERIAL

Exclusively made with recycled raw materials - recycled black rigid PVC.

SIZE

Profiles: 1470 mm (length)

INSTALLATION

Screws (check our installation instructions for more information)

WEIGHT (box)

Under request.

PACKED

Profiles: 20

Connectors / clips: 100

Screws: 100

RELEVANT INFO

Muratto's CLIP 2 FIX® installation system is exclusive and patented. It is available for purchase as an installation system for Muratto collections, as well as for other products.

For complete instructions, please consult Muratto's installation instructions' document.

WHY TO USE CLIP 2 FIX®

The CLIP 2 FIX® mounting system offers several advantages for tile/panel installation:

- Quick setup (mount and connect);
 - Hidden mounting system (no visible screws);
 - Simple mounting adjustments (allows for panel movement in both horizontal and vertical directions);
 - Solo attachment (the connector can be used alone for 'solo' product placement without a system);
 - Simple installation without the use of glue;
 - Reusable (connectors and profiles can be easily disassembled and reassembled);
 - Optional acoustic membrane for added acoustic performance;
 - Cost-effective solution (significant installation savings);
 - Sustainability (made entirely of recycled materials).
-

WHEN AND WHERE TO USE CLIP 2 FIX®

CLIP 2 FIX® can be used for mounting panels and tiles to walls, ceilings, or other fixed objects, in places such as:

- General commercial areas;
- Retail spaces;
- Residential applications;
- Exhibition booths and showrooms;
- Hotels (guestrooms, lobbies, bedrooms, etc.).

STONE IT

ABOUT STONE IT

Stone It stands out as a decorative coating crafted from minerals, water-based resins, and natural components, ensuring a completely natural product. Versatile and functional, it transforms any surface into design-led, aesthetic, and sophisticated surroundings. The hand-finished application technique gives birth to one-of-a-kind, exclusive, and unrepeatable works of art, creating surfaces unlike any other. Ideal for walls, furniture, and decorative items, Stone It offers a range of colors that can be paired with either a finishing varnish or a metallic pigmented varnish.

MATERIAL

Mineral plaster. A multi-solution surface covering, composed of mineral stone powder, later and other natural additives.

PACKED

On request

AVAILABLE OPTIONS

- _ Neutral plaster: 1kg and 5kg;
- _ Color pigments: 200gr and 1kg;
- _ Varnish for furniture, walls and objects (HG or Matte): 1L;
- _ Varnish for wet areas: 1L;
- _ Metallic effect to mix with the varnish (Gold/Silver/Black): 200gr.

ESTIMATED CONSUMPTION

- _ 1kg neutral plaster corresponds to 200gr of color pigment;
- _ To create a paint effect, 1kg of neutral plaster corresponds to 5sqm;
- _ To create a three-dimensional effect, 1 kg of neutral plaster corresponds to 1 sqm;
- _ 1L varnish corresponds to 10 to 12sqm.
